Product Performance Introduction

Name	Place of Origin	Materials	Processing	Quality Assurance	Manufacturer	Advantages	Disadvantages
DuPont Corian	USA/Japan	Solid surface	Pressure molding	10 years	DuPont	Skin-friendly, non-porous, antibacterial, resistant to bacteria and mildew, durable, repairable, strong plasticity, no yellowing	High price
Kenmei	Guangdong, Jiangmen	Solid surface	Pressure molding	10 years	Balboa Technology	Skin-friendly, non-porous, antibacterial, resistant to bacteria and mildew, durable, high price-performance ratio, repairable, strong plasticity, no yellowing	Moderately high price
Pure Acrylic Artificial Stone (Hanwei Stone)	China	Polymethyl methacrylate (PMMA) and aluminum hydroxide(ATH) are used as a blend, and do not contain any other resins.	Casting, splicing	3 years	Partial high-quality factory	Durable, heat-resistant, high-temperature resistant, impact-resistant, high hardness, scratch-resistant, repairable	High price, dense, non-porous, but not as soft as solid surface
Gel Coat	China	Made of an outer layer of resin used for glass products, which is a special type of resin with a glossy finish. It is mainly used for the surface of products, and the thickness of the resin layer is generally about 0.4 mm.	Casting, splicing	3 years	Most factories	No yellowing, no cracking, joints cannot be spliced to be seamless, repairable, good price-performance ratio, cheap price	Poor feel, low density, easy to crack, easy to penetrate
Composite Artificial Stone	China	(UPR+MMA) is made by blending unsaturated resin and methacrylate. It's filled with aluminum hydroxide, and a silica-based filler is used to create a practical type of artificial stone with a composite of both resins and silica.	Casting, splicing	3 years	Most factories	Has some characteristics of MMA, good density, easy to polish, low price, repairable, easy to color, prone to yellowing, poor durability	Prone to yellowing, easy to deform, high density
Quartz Stone	China	Made of over 90% natural quartz and 10% resin, with pigment and other additives blended and cured.	Casting, splicing	3 years	Most factories	Shiny with some bright spots, difficult to polish, can be ground with sandpaper, high quality feel	Not easy to repair after scratches
